## **Jersey War Tunnels Recognised Among Top 10% of Attractions Worldwide**

Jersey War Tunnels is proud to announce that it has once again been recognised in Tripadvisor's® Travelers' Choice® Awards for 2025. This marks the fifth consecutive year that the attraction has earned a spot among the top-rated visitor experiences globally, a distinction that places it in the top 10% of listings on the platform.

Each year, Tripadvisor celebrates attractions that consistently earn great reviews and ratings from travellers and visitors around the world. The award is based on genuine, first-hand feedback over a 12-month period and is a true reflection of the outstanding experiences shared by those who visit.

Discussing the accolade Damian Warman, General Manager of Jersey War Tunnels, said, "We're delighted to have been recognised once again by Tripadvisor. This award is a testament to the passion and hard work of our team, who strive to ensure every visitor leaves with a meaningful and memorable experience. Most of all, we're grateful to our guests who continue to share their positive feedback and support, it means a great deal to us."

The recognition follows an exciting period of change for the attraction. Jersey War Tunnels was acquired by Trevellyan Operations Limited earlier this year, marking the beginning of a new chapter for the site. The new owners are committed to enhancing the visitor experience through fresh investment, innovation and a continued focus on historical preservation.

Kristen Dalton, President of Tripadvisor, added, "Congratulations to Jersey War Tunnels on its recognition in Tripadvisor's Travelers' Choice Awards for 2025. Ranking among the top percentage of businesses globally means you've made such a memorable impact that many of your visitors took the time to leave a glowing review. We hope this recognition continues to drive success for you throughout the year."

## **Notes to Editors**

### **About Jersey War Tunnels (JWT)**

Dug deep into the hillside by forced and slave workers from nations across Europe, JWT now contains an underground collection of thought-provoking exhibits that tell the fascinating story of Jersey's occupation from resistance, through to starvation, then eventual liberation.

JWT tells the stories of people who experienced life under German occupation, told first hand or passed down the generations in local families. The exhibitions tell tales of everyday life, surprising events and often unexpected situations - but always the human story, of people surviving and living their life under extraordinary circumstances.

JWT is made up of the 1,000 metre underground tunnel complex, which houses the award winning exhibition, a visitor centre, the Garden of Reflection as well as two escape room experiences, all on a 29.5 acre site in the heart of the Jersey countryside.
